Relevant Experiences

○ Frontend Developer - Working Student

Golfpost AG

Cologne (Remote)

April, 2024 - September 2024

Skills: Svelte, SvelteKit, Javascript, Tailwind, REST API Figma, Git

- Developing a fantasy gaming web application using SvelteKit and Tailwind, creating components and modular functionalities, and integrating a RESTful API with live data
- Developed core features for the fantasy application including Player and User dashboards, Player Picker, Tournament and League management tools and user authentication
- Developed an end-to-end, members-exclusive company portfolio website, focusing on enhancing the user interface and integrating multi-language support
- Collaborating with an agile team of developers, leveraging the Scrum methodology to ensure timely deployment of product

○ Fullstack Developer - Working Student

V4C Management Consulting GmbH

Munich (Remote)

March, 2023 - July, 2023

Skills: Next.js, Javascript, TailwindCSS, REST API, Wordpress, Microservices, MySQL, Figma, Git

- Worked in the design, development and deployment of UI and a MySQL database for a new company website
- Developed a REST API that fetches dynamic information from a headless CMS to populate important website contents
- Worked in data migration from a legacy WordPress site to a Next.js web application, with a focus on microservices software architecture
- Designed an end-to-end Figma prototype for a management consulting mobile application

○ Frontend Developer - Working Student

LeanERA GmbH

Leipzig (Hybrid)

August, 2022 - January, 2023

Skills: TypeScript, Vue.js, Nuxt.js, Ionic, TailwindCSS, Pinia, Git

- Development of a cross-platform mobile application MindCleanse, a mental health coaching mobile application
- Collaborated with team members in sprint meetings to develop features and functionalities based on customer requirements
- Practiced pair programming to develop a client website called OneHandBall
- Developed and deployed a video chat module for MindCleanse; also compatible with the company's other Vue applications

○ Fullstack Developer - Co-Founder

Codepth .LLC

Bhubaneswar, India (Hybrid)

July, 2019 - July, 2020

Skills: ReactJS, NodeJS, Flask, Postgresql, MySQL, Python, JavaScript, TailwindCSS, BootstrapCSS, HTML/CSS, Git

- Built responsive web applications for small businesses and individual clients
- Designed web and mobile application prototypes for clients and developers
- Developed and maintained the startup's digital infrastructures, including relational and non-relational databases
- Interacted with end-users to analyze feedback, fix production issues and add new technical features
- Maintained technical documentation for junior developers and end-users respectively

MSc. in Web Engineering

Chemnitz University of Technology, Germany

Thesis: Content Analysis using LLMs for Trust Evaluations by ConTED

Grade: 2.07

- Software Service Engineering
- Database & Web Techniques
- Advanced Management of Data
- Machine Learning
- Media Retrieval
- Media Encoding

BSc. in Computer Science & System Engineering

Kalinga Institute of Industrial Technology, India

July, 2017 - August 2021

Thesis: Smart Surveillance Using Face Recognition System

Grade: 1.96

- Data Structures & Algorithms
- Design & Analysis of Algorithms
- Database & Management Systems
- Software Engineering
- Computer Networking
- Operating Systems

Related Projects

Fantasy Golf - Golf Post Company Project

April 2024 - Present

Skills: SvelteKit, Javascript, Tailwind, REST API, Git

- Developed Golfpost Fantasy, a comprehensive fantasy golf platform that delivers live sports data, player recommendations and predictions, and player dashboard all in an immersive and interactive user interface.
- Implemented live tournament tracking, league creation, leaderboard and dashboards with player selection features that enforces user engagement and retention
- Developed premium membership features with automated high-performance team generation based on real-time data.
- Designed a visually appealing, responsive interface with an integrated dark theme, ensuring a seamless user experience across devices

BDesign Corporate - Web Theme Template

March, 2023 - September, 2023

Skills: Next.js, Javascript, TailwindCSS, Netlify, Git

- A versatile corporate-themed website developed using Next.js, JavaScript, and TailwindCSS and deployed with Netlify
- Incorporated theme switch functionality to seamlessly toggle between dark and light mode
- Contains a dedicated Team page, Contact page, Error 404 page, and much more.
- Followed UI Design Principles to develop smooth and responsive design compatible with different screen sizes

Link: <https://bdesign-corporate.netlify.app/>

MindCleanse - LeanERA Project

September, 2022 - January, 2023

Skills: TypeScript, Vue.js, TailwindCSS, Pinia, REST API, Git

- Developed a video call service for MindCleanse, a mental health coaching mobile application. This feature provides a convenient way for the users to connect and interact with the trainer, personally as well as in a group.
- Designed and implemented email templates for exchange between the app and its users via a customized email.
- Developed various pages for the MindCleanse App, including the animated splash screen, login, forgot password, settings, the home page, and other static pages.
