Technical Skills

Programming Languages: HTML5, CSS3, Javascript, Typescript
Frontend Tools: React.js, Next.js, Vue.js, Nuxt.js, TailwindCSS, Svelte
Backend Tools: Node.js, Express.js, REST API, MongoDB, MySQL
DevOps & Testing: Jira, Docker, Git, Github
Other Tools: Figma, Wordpress, MS Office
Concepts: Agile Principles (Scrum & Kanban), Responsive UI/UX design

Professional Experience

Golfpost AG   **April 2024 - September 2024**
Working Student - Frontend Developer   *Cologne, Germany*
Skills: *Svelte, SvelteKit, Javascript, Tailwind, REST API, Figma, Git*

- Developed and delivered a fantasy gaming web application using SvelteKit and Tailwind, creating modular components and functionalities, and integrating data with REST API
- Developed core features for the fantasy application, including Player and User dashboards, Player Picker, Tournament and League management tools
- Developed an end-to-end, members-exclusive company portfolio website with Svelte, focusing on enhancing the user interface and implementing internalization
- Collaborated with an agile team of developers, designers and stakeholders, ensuring timely completion of sprint goals and successful deployment

V4C Management Consulting GmbH   **March 2023 - July 2024**
Working Student - Web Developer   *Munich, Germany*
Skills: *Next.js, Typescript, TailwindCSS, Node.js, REST API, MySQL, MongoDB, Docker, WordPress, Figma, Git*

- Developed a large-scale dynamic company portfolio with features like blog, user and admin dashboards, customer support, and authentication; drastically enhanced user-traffic to company website
- Developed relational and non-relational databases for managing user and company data, with API endpoints
- Leveraged a microservice architecture using Docker for containerising Frontend, APIs, and Databases for enhanced scalability and faster deployment
- Managed the legacy company website with WordPress, by collaborating with management to add custom features, plugins, and optimise performance

LeanERA GmbH   **August 2022 - January 2023**
Working Student - Frontend Developer   *Leipzig, Germany*
Skills: *TypeScript, Vue.js, Nuxt.js, Ionic, TailwindCSS, Pinia, Git*

- Developed a cross-platform mobile application called MindCleanse, a mental health coaching application in Vue.js ecosystem with Tailwind, Typescript and Pinia.
- Collaborated with the agile team to conceptualize user stories, brainstorm design concepts, discuss and develop features and functionalities, and complete sprint goals
- Practiced pair programming to rapidly develop a client website called OneHandBall
- Developed and delivered a video chat module for MindCleanse; compatible with the company's other web applications

Education

Technische Universität Chemnitz   **October 2021 - December 2024**
M.Sc. in Web Engineering   *Chemnitz, Germany*
Final Grade: **2.04**
Courses: Machine Learning, Cloud Computing, Web Applications, Software Service Engineering

Kalinga Institute of Industrial Technology   **July 2017 - August 2021**
B.Tech Computer Science & System Engineering   *Bhubaneswar, India*
Final Grade: **1.96**
Courses: Data Structures and Algorithms, Database Management System, Operating System, Web Technology

Languages

English - C1   German - A2 (actively improving to B1)

Projects

FarmHub CRM - Personal Project   **October 2024 - Present**

Skills: *Svelte, Typescript, TailwindCSS, Node.js, Express, Capacitor with Ionic, Docker, AWS, PostgreSQL, MongoDB, AWS, Git*

- Developing a CRM business tool for small tea growers (STG) in the state of Assam, India, to connect with exporters, distributors, and processing factories while also providing easy-to-use CRM tools for efficient business management
- Frontend contains a distinct web application and cross-platform mobile applications (iOS & Android) with a shared web backend built with Node.js with Express and hosted in AWS ECS
- Includes a Finder feature which allows tea growers to find registered distributors, exporters and factory owners
- Other planned feature include region based tea auction price indicators, government scheme alert, product recommender for tea growers, and AI tool for assisting in tea growing strategies or investigating tea growing backlogs

Fantasy Golf - Golfpost Project   **April 2024 - September 2024**
Skills: *SvelteKit, Javascript, Tailwind, REST API, Git*

- Developed reusable frontend components and functionalities for a fantasy golf platform that allows users to predict real tournament winners while suggesting and predicting winners in an immersive user interface.
- Implemented live tournament tracking feature, league and player dashboards, leaderboard and user panels
- Developed premium features like automated team generation based on golfer performances and user behaviours
- Conceptualized a visually appealing, responsive user interface, ensuring a seamless user experience across devices
